

NODE RED FLOW

Http requests

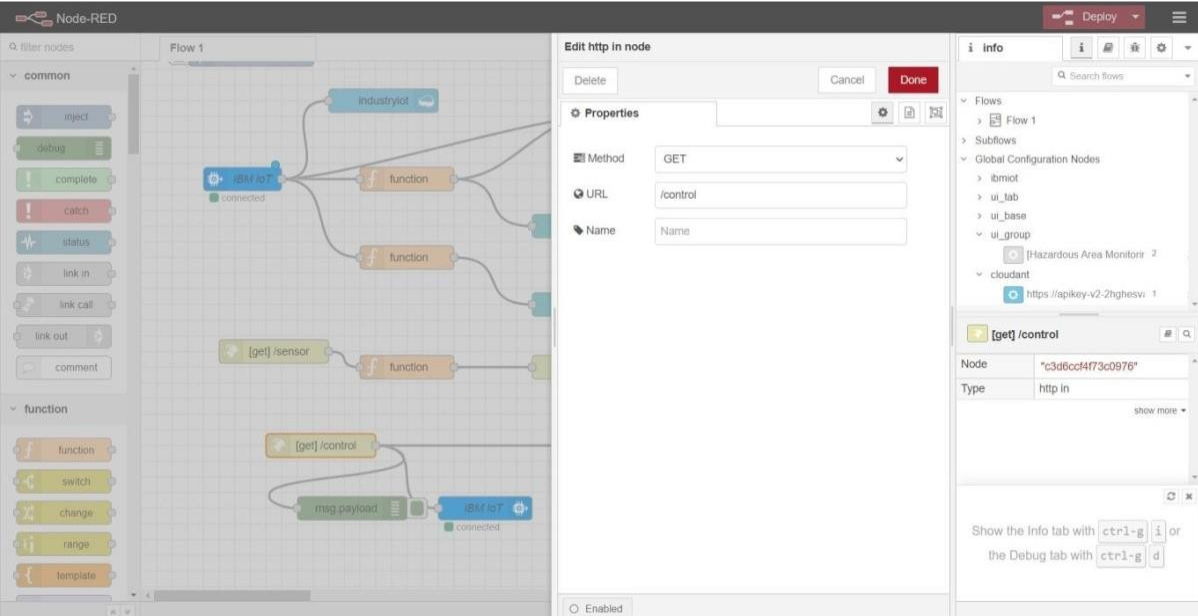

The screenshot shows the Node-RED web interface. On the left, the 'common' and 'function' node palettes are visible. The main workspace displays a flow named 'Flow 1' with an 'IBM IoT' node connected to a 'function' node. The 'Edit http in node' panel is open, showing the following properties:

- Method: GET
- URL: /sensor
- Name: Name

The 'info' panel on the right shows the node details for '[get] /sensor' with Node ID 'ac27b7986f90525b' and Type 'http in'.
